

# Performance Analysis and Evaluation of DS-UWB System on Fading Channel

修士課程修了 曲 丹陽

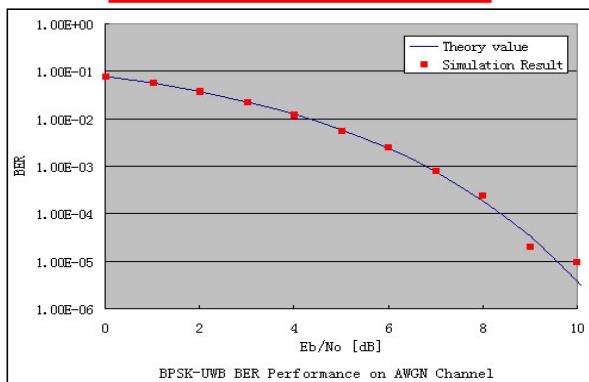

## Background

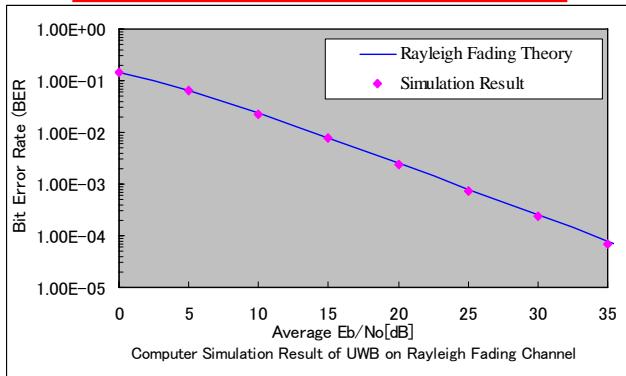

- UWB Signal: Short Duration, Wide Bandwidth
- Digital information: Transmitted by pulse train
- Important: Performance analysis and evaluation

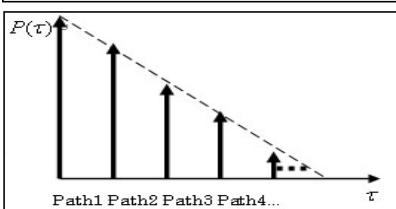

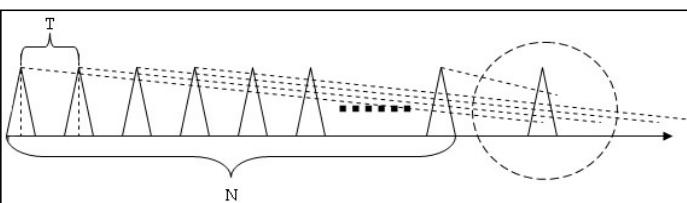

## AWGN Channel

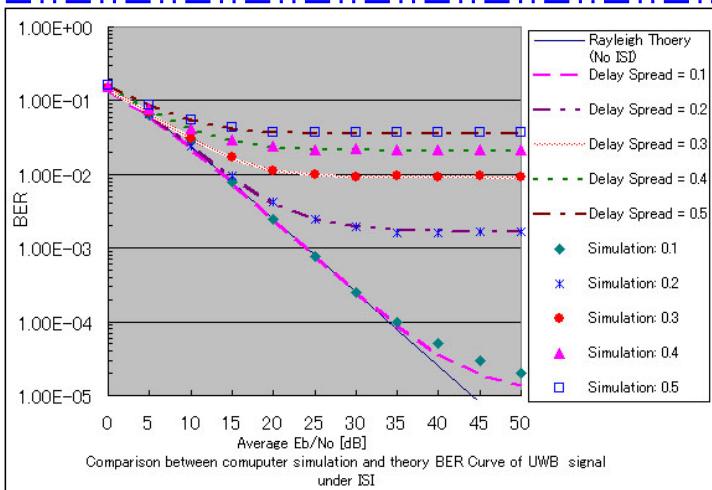

## Rayleigh Fading Channel

## Rayleigh Fading Channel in The Presence of ISI

$$P(\tau) = \frac{1}{\sigma} e^{-(\tau/\sigma)}$$
