修士課程卒業 趙 一鳴

## Background

## Problems & Challenges

Wrong position exchange

	Ball	Players
Target number	1	12
Area size (Pixels to observe)		20 times larger
Feature Used	HSV	HSV & Sobel

Large calculation cost

## Proposals

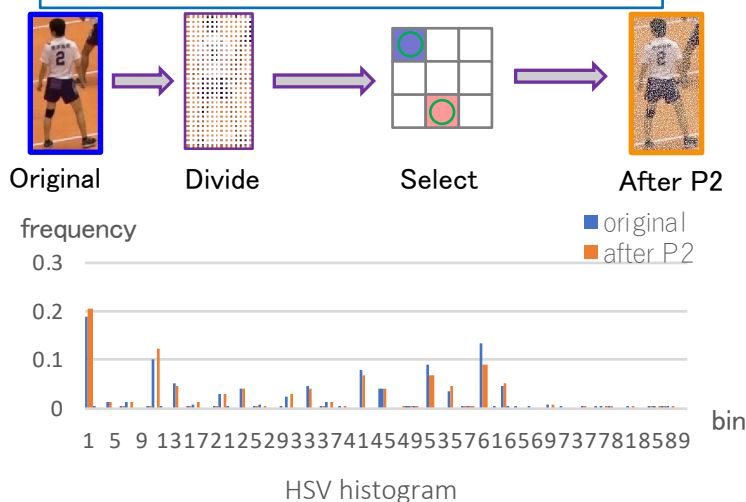

### Framework

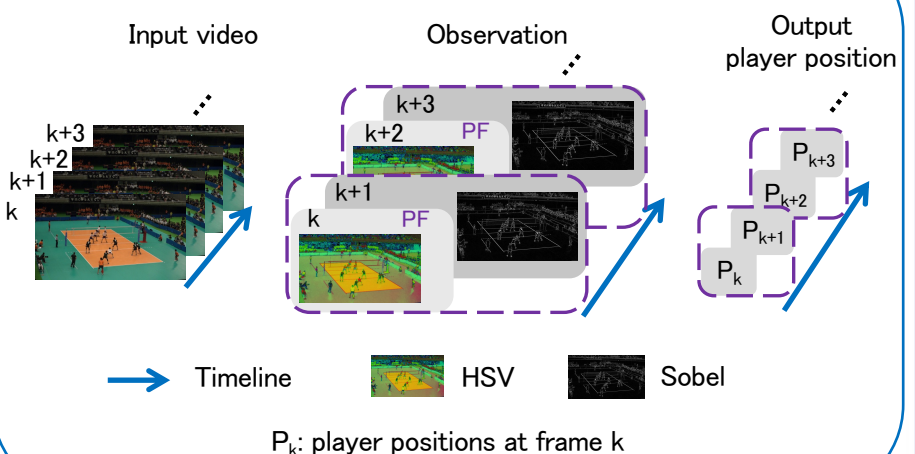

### P1: Body Region Constraint Prediction

### P2: Color Weighted Spatial Pixels Selection

### P3: HSV-Sobel Alternated Temporal Acceleration

## Experiment result
